HANES SUPPLY INC.

For strength, durability, and precision in overhead transmission line projects, trust **Tower Power** Transmission Stringing Lines from Pelican Rope. Our popular H-12 rope, made with 12-strand HMPE synthetic fibers, offers exceptional strength, water repellence, and resistance to chemicals and abrasion, excelling in heavy-duty pulling and lifting. Complementing it, the P-12 high-tenacity polyester rope features minimal stretch, a torque-free design, and easy field splicing, ensuring efficiency and reliability. Both ropes are engineered for demanding conditions, delivering stability, safety, and unmatched performance for critical transmission stringing operations. Elevate your transmission stringing with **Tower Power** from Pelican Rope.
